Renee,

What are the details on this ??

Best,
Tristen

I will send the WPD hotline number to Rendell for expedited collection of hazardous waste.

Renee,
Pls reach out to Rendell to get a better picture of how we can help.

> Mr. Bonin, I am a home owner in Mar Vista, Los Angeles, and I would like you to address some serious health and sanitation concerns that exist in my neighborhood. There is a homeless epidemic in Mar Vista, as in all areas of Los Angeles, that must be dealt with by city officials. I regularly encounter human waste, used hypodermic needles, and large amounts of soiled blankets and other trash on my short walk to the local coffee shop. I have a two year old child that is exposed to these health hazards just by walking on the sidewalk in front of my house. There are large groups of people operating outside of the closed sewer system that human civilization has spent thousands of years perfecting to avoid diseases such as Hepatitis, gram negative bacteria, Tenanus, etc.
>
> This is a serious health and safety concern! The city of Los Angeles, by allowing people to live on any public street they choose, is exposing children to these diseases, not to mention the safety and security concerns that these encampments pose. (FYI, my wife was physically threatened directly in front of my house yesterday and the police could do nothing to stop it.)
>
> I would like daily cleanup of human waste and used needles, immediate removal of soiled clothing, blankets, etc., increased police presence, and a long-term solution to get these homeless folks back into the closed sewer system to avoid the disease exposure of the current condition.

I look forward to your response and offer whatever assistance I can provide.

Thank you.
